

Date: 06.10.2026

Name of the Institute: ICAR-Central Institute of Coldwater Fisheries Research, Bhimtal, Uttarakhand

Name of Activity: **Swachhta Campaign at RAS facility in the institute**

As part of **Special Campaign 6.0**, a comprehensive cleanliness and sanitation drive was conducted at the **Recirculatory Aquaculture System (RAS) facility** of ICAR-Central Institute of Coldwater Fisheries Research, Bhimtal, on 06.10.2026. The activity focused on improving cleanliness, hygiene, organization, and overall appearance of the RAS facility.

During the campaign, the facility was thoroughly cleaned, and cluttered and unused materials were removed from the premises. Equipment and other items were systematically arranged to ensure better utilization of space and facilitate smooth operation and maintenance of the facility. The initiative also contributed towards creating a cleaner, safer, and more aesthetically organized working environment.

Scientists and staff associated with the **RAS facility and Feed mill** actively participated in the cleanliness drive and contributed to the successful completion of the activity. The campaign reinforced the importance of cleanliness, workplace organization, and collective responsibility in maintaining institutional facilities.
